BIG REDUCTION IN WAGES.

Tin Plate Workers Asked to Accept a Cut of 25 Per Cent.

Cincinnati, Ohio, July 19.—The Enquirer's special from Anderson, Ind., says:

Tin plate workers confirm a report that they have been asked by the American Tin Plate company to allow their wages to be reduced 25 per cent so that the company may accept an order from the Standard Oil company for 1,500,000 boxes of American tin plate. The same question is before all the tin plate workers throughout the country and especially those under the scale of the Amalgamated Association of Iron, Steel and Tin Workers. They will decide on the proposition by vote the coming week.

The American Tin Plate company represents that the Standard Oil company has been buying tin from Wales and will renew its contract with Welsh manufacturers unless the American Tin Plate company can meet them. The Standard pays a tariff of \$1.40 per box, but receives a rebate of 99 per cent by exporting the same tin made up into cans containing oil for foreign markets.

By taking the Standard's annual contract the American Tin Plate company would get the last of the big American buyers of tin from Wales. It is also asserted that it would insure steady operation of the American mills the year round.

JAPAN WILL BUY.

Intends to Offer United States a Good Price for the Philippines.

Atlantic City, N. J., July 19.—S. Goto, Japanese governor of Formosa, who has been at the Dennis with his suite, has gone to Washington to confer with government officials relative to the Philippines.

In speaking of his intentions Governor Goto said: "Japan would like to buy the islands, but we cannot buy them at present. We want them and are willing to negotiate for their purchase at once. Should the United States desire to get rid of the islands they have a ready purchaser in Japan when the time comes that we can pay for the property. I will discuss the matter with the chief executive of the United States when I reach Washington."

Mr. Goto preferred to have a conference with President Roosevelt before being questioned further, as he had a proposition to make which should be submitted to the president before being made public.

EXCITEMENT IN GRAIN.

Frightened Shorts Make Prices Soar at Chicago.

Chicago, July 19.—There was great excitement in grain during the day. Heavy rains in the Southwest frightened shorts, who bid so frantically to cover their outstanding accounts, that prices—especially in oats and wheat—literally soared. At top prices there was plenty of stuff for sale in the deferred options and prices sagged somewhat. July deliveries, however, fluctuated in a fashion that would have done credit to a corner and at the close all prices were strong. July oats closed 2½ cents higher; September oats, 1 cent up; July wheat, 2½ cents higher; September wheat, one-half cent up.

Show Hatred of Germans.

Berlin, July 19.—Polish hostility to the Germans is expressed in the celebration of the defeat of the Knight of St. John at Taneberg by the Poles and Lithuanians in 1410 by a thanksgiving mass in the cathedral of Gnesen, province of Posen, where the Wreschen school is situated.

GROWS WORSE HOURLY

NOT THE SLIGHTEST CHANCE OF CHECKING THE MISSISSIPPI FLOOD.

MANY FARMERS PENNILESS

Damage Done in Missouri So Far Is the Most Costly in the History of the Father of Waters Above St. Louis—Loss Placed at About Six Million Dollars and It Is Believed the Worst Is Yet to Come.

Keokuk, Ia., July 21.—Exploration of the flooded districts of the Mississippi river from Keokuk south shows conditions beyond the appreciation or realization of any but people of long experience with the Father of Waters in its most destructive mood.

The situation is growing worse hourly and a great conflagration in a great city would not be more rapidly destructive of values. There is absolutely not the slightest chance of stopping this most costly flood in the history of the great river above St. Louis. People at the river cities give accounts of losses aggregating many millions of dollars. Hundreds of farmers rich ten days ago are penniless and homeless.

Careful estimates of the territory covered by the statements of those best informed indicate the loss up to today is about six million dollars, with every prospect of two or three millions additional by the rise above, not yet reaching the lower stretches of the river.

Most of this loss is on the Missouri side of the river between Keokuk and Hannibal.

Passing the lumber yards of Keokuk, the mouth of the Des Moines river is nearly two miles wide. Normally there are two months, and a delta covered with farms, which are now under raging torrents.

Alexandria was protected to the last by the Egyptian levee, the breaking of which would send four feet of water over all the town. Gregory is submerged, except the white church. Other towns and cities on the island are beyond the danger line.

Immense fields are a great lake with the

Shore Visible Only With a Glass. where the high bluffs bound the bottoms. Islands dotting the river at its normal stage have disappeared except for the tops of trees or fringe of willows slightly protruding like a circular green coral reef. Occasionally a house on piles or stilts is seen, but generally only roofs protrude to mark the center of farms of corn.

On the edge of the flooded river corn gradually rises on a slope, tassels, tops, ears, stalks appearing in order. Shore lights for pilots are standing in the midst of a waste of waters, where steamboats can run over them. The river is five to ten miles wide and another great lake is added to the geography.

All this territory was practically covered with corn a fortnight ago, estimated to make seventy-five to a hundred bushels to the acre. The loss is total. Experience is that if water shall stay forty-eight hours even four inches under the surface, it kills corn and every stalk wet by waves perishes from rotting roots.

The height of the flood is indicated by an incident at Lagrange. The steamboat warehouse was well back from the river bank and sits high. A strong current and a gale caused the pilot to make an imperfect landing and the cornice of the roof of the warehouse was torn off by the forward guards of the Silver Crescent. The river is rising all the time, six inches during the day in the immense area of 700 square miles and

The Worst Is to Come

by the extension of the flooded area by the water passing levees, which it is now toting.

The chief flood thus far is on the Missouri side from Keokuk to Louisiana, with Canton and West Quincy as centers of the country, the most injured. On the Illinois side are three continuous levees for forty miles from Warsaw to Quincy above the waters, which are thus far safe, but farmers are afraid of crevasses from muskrat holes and every rod of the redoubt is watched day and night.

The breaking of these levees would flood 175 square miles in Illinois and destroy \$2,000,000 to \$3,000,000 worth of corn.

Opposite Quincy, in Missouri, is still another twelve miles to Lagrange and south to Holton, large prairies are well under water, reaching from the Illinois bluffs to the Missouri bluffs, at least ten miles.

Levees hastily thrown around farms have disappeared in the fierce current, rushing from above through the draw of the Burlington bridge, carrying everything before it. Lone Tree prairie, ten miles square, is deserted, the population having escaped to Quincy and the bluffs on the Missouri side, where they watch the complete destruction.

Fabius river, fifteen miles above Hannibal, is high and furnishing a route for the Mississippi to flank and reverse the levee, as the Fox river does forty miles up the Mississippi. This flanking movement makes even the highest

Missouri Levees Ineffective.

Around Lamotte, Silverton, Busch Station, Clemens and Ashburn, north of Hannibal, there is more wheat than at other places, and all in the shock is mostly washed away. The chief crop there is corn, however, and there is the same ruin as at other places.

In the vicinity of Quincy and Hannibal there is much unnecessary loss on account of peculiar conditions of the flood. A smaller flood began to subside when warnings from the Keokuk weather bureau observer were received and unheeded, as being after the fact, when actually it was before a new and greater flood.

The Egyptian levee is still several inches above the Des Moines river, which is now stationary here at its mouth. Reports from Ottumwa show a fall of two feet. Points beyond also show a falling. Unless heavy rains shall occur the Des Moines river should begin to fall here. The situation looks brighter. The Mississippi shows a stage of 15.4 feet, the highest since 1897, is still rising, but not as fast as it was. Great damage has already been done, but the worst is probably over.

IMMENSE DAMAGE DONE.

New York State Suffering From Rain and Flood.

Olean, N. Y., July 21.—Again the Genesee valley has been submerged by torrential rains, causing immense damage. The large bridge, which has just been rebuilt in place of the one washed away two weeks ago on the Erie at Scio, has been weakened and is considered unsafe.

Sheridan was inundated by a cloudburst.

The rivers and creeks at this place are bank full and rising rapidly and the rain still continues to fall.

Dunkirk, N. Y., July 21.—Northern Chautauqua county suffered heavy loss from floods. The downpour was terrific. The damage to crops is immense and railroads are heavy losers from washouts. On the Dunkirk, Allegheny Valley and Pittsburg near Lilydale, the water leveled a banked roadbed 200 feet long and 40 feet high.

Gowanda, N. Y., July 21.—A disastrous flood did great damage to this village and surrounding country. The creeks went over their banks and the streets were soon like rivers. A dam in Thatcher's brook gave way and the rush of water carried away sidewalks, fruit trees and small outhouses.

Springville, N. Y., July 21.—Many bridges were swept away by the flood during the day. Another way of mud covers the crops, which were badly damaged two weeks ago, and will probably completely destroy them.

Farmer, N. Y., July 21.—The most disastrous flood that has visited this portion of Seneca county, occurred during the afternoon. Wheat in the shock, hay on the ground and cocked up, gardens, railways and in some places bridges washed out. The damage to the town of Covert will reach thousands of dollars.

THREE CLOUDBURSTS.

Four Persons Lose Their Lives in Broome County, N. Y.

Binghamton, N. Y., July 21.—The heavy rains prevailing in this section for the past few days, reached a climax when three separate cloudbursts occurred within the limits of Broome county and several in surrounding territory to the north, breaking mill dams, washing out railway tracks and highway bridges and doing much other damage, besides delaying trains. Four persons are dead and two are seriously injured.

The loss to property will reach \$200,000. The dead are: James Cooke and wife and their six-month-old child, drowned at Afton, Chenango county. Michael J. Ryan, of this city, killed in washout. The seriously injured are: Engineer Edward W. Farran and Fireman W. E. Marsh of this city.

ILLINOIS RIVER RISING.

Peoria, Ill., in Imminent Danger of Being Inundated.

Peoria, Ill., July 21.—The Illinois river stands in imminent danger of causing thousands of dollars worth of damage to buildings and manufacturing plants in Peoria. The damage already caused along the lowlands by the floods will be but a drop in the bucket as compared with what it will be if the water gets one foot higher and river men say there is no possibility of the water receding in the next 36 hours. People living along the lowlands both above and below Peoria have sought the highlands and have driven their stock with them.

MILITIA CALLED OUT.

Will Endeavor to Prevent a Lynching at Rusk, Tex.

Dallas, Tex., July 21.—A special from Tyler says that two companies of militia have been ordered by special train to Rusk, Henderson county, for the protection of a negro, 70 years old, who is confined in the jail at Rusk charged with criminal assault on the daughter of a planter. The victim of the negro's alleged assault is highly connected and her relatives and friends are so highly incensed that trouble is expected.

Funeral of Mine Victims.

Park City, July 19.—The funerals of the victims of the Daly-West mine disaster were held during the day. Business was suspended, flags were at half mast and the public buildings and many private residences were draped with crepe.

Not Left Out.

An English paper tells a story of some children's theatricals. A party of children were giving a little drama of their own, in which courtships and weddings played a leading part in the plot. While the play was in progress one of the grownups went behind the scenes and found a very small girl sitting in the corner.

"Why are you left out?" he asked. "Aren't you playing too?" "Oh, I'm not left out," came the reply. "Is the baby waiting to be born?"

In the Tyrolean parishes of Mieming and Rietz the members of nearly every household are engaged in the making of rosaries by stringing beads together.

From the Theater Gallery.

Mr. W. Pett Ridge tells in the English Illustrated that the best repartee he ever encountered was in the gallery of a theater. An extremely stout, good tempered woman contrived to wedge herself into a space that would have accommodated a person of ordinary size, to the unconcealed annoyance of a smartly dressed youth next to her. She began to peel an orange, and the youth, with a gesture of complaint, removed his silk hat fustily to a safer position.

"I suppose," said the good tempered woman, "that you'd rather have had a gentleman sitting by the side of you, sir, wouldn't you?"

The youth replied snappishly in the affirmative.

"Ah," said the woman thoughtfully, "so would I!"

OFFICIALS of the St. Cloud land office on Saturday received from the commissioner of the general land office his decision, affirming the rejection of a large number of entries recently made at this land office in sections 16 and 36 in the Mille Lacs and Leech Lake Indian reservations. The commissioner holds that the lands claimed by the state are not properly open to entry, despite a decision in the Red Lake reservation cases declaring the state had no legal right to the sections.

THE annual outing of the Northern Minnesota Editorial Association will take place August 1, the following being the outline as planned: Rendezvous at Duluth August 1st; take train to Virginia; visit the iron mines, and go to Tower in the evening. August 2d, steamboat ride on Lake Vermillion, visit the deep iron mines at Soudan and return to Duluth in the evening; August 3d, ride about Duluth, and across the lake to Houghton and Hancock, Michigan. August 4th, visit to most interesting copper mines in the world. August 5th, arrive at Duluth and disband.

They caught a great amount of fish, and pronounce that locality one of the finest in many respects, to be found in Minnesota. As soon as possible an automobile will be procured to make daily trips and it will be one large enough to carry 2 dozen people and "2,000 fishes."

Presence of Mind.

During a performance at one of the London theaters a man and his wife had to quarrel on the stage, the woman in a rage of jealousy, the man trying to persuade her that she was too suspicious and too passionate. Both were acting with great spirit when the wife moved her arm too near the candle, and her muslin dress was in flames in an instant. Both actors kept their heads, however. The husband extinguished the fire and, proceeding with his part, interplated:

"You see, my dear, I was right. You are ready to flare up at the least thing."

Summer.

Moss at our feet, and overhead all green,
'Gainst tender skies that ever earthward lean,
While feathered songsters lift their lays serene.

Hill-sides aglow and bramble-bow'd dells
Where woodland music softly sinks and swells,
Where sway a million pale and fragrant bells.

See the last trace of dreariness give room
To summer's glow of sunshine and perfume,
And the glad times of mingled song and bloom.

DISPOSITION OF CHIPPEWA LANDS

Officials of the Interior Department Discussing the Matter Minutely.

TAKE SOMETIME TO GET READY

Mille Lac Indians Must be Allowed to Select Some Allotments Under the Law.

Officials of the interior department have reluctantly come to the conclusion that the only thing which can be done in the way of disposing of the Chippewa timber and agricultural lands under the terms of the Morrison bill is to sell. It is expected that the advertisement of the sale of this timber will be sent out within a month or so that some logging may be done next winter. The reason that no more timber land can be sold is that only about 20,000 acres in the reservation have been classified as timber and under the terms of the act this will be needed for forestry purposes.

As soon as lists of timber lands are furnished the secretary by the commissioner of the general land office they will be turned over to Gifford Pinchot, chief of the forestry division of the agricultural department, and he will designate such of them as he wants to be retained as forest. The list will take some months and in the meantime agents will be appointed to classify the remainder of the ceded lands. It is estimated that there are about 1,000,000 acres unclassified and it will take a long time to prepare classification lists and approve them because of the necessity for the reservation of forestry lands and classification of the remainder.

The department will not be able to advertise the sale of other timber lands until some time next summer, but the officials say everything will be done so that extensive logging operations may be commenced in the winter of 1903. An unexpected hitch has also arisen with regard to the opening of the agricultural lands. The Indian office today submitted a report to the department showing that only a few allotments remain to be made to Indians residing on Leech Lake, Cass Lake, Red Lake and Winnebagoish reservations, but that under the terms of the Indian appropriation act of the last session the Mille Lac Indians must be allowed to select allotments on any of the ceded reservations. There are about 800 members of the tribe entitled to allotments and the time in which these can be made depends on the will of the Indians. Inspector McLaughlin has been directed by the secretary to make the allotments and he has also been instructed to hurry the matter up. It is hardly probable therefore that any agricultural lands will be opened to settlement until next spring.

The Turk and Life Insurance.

One man was complaining that he had insured twenty years before in a mutual benefit company which promised all sorts of things, and now the time was up he received less than he would have done if he had invested his money elsewhere. A wise Turk who was sitting close by said it reminded him of a camel belonging to a friend of his. It was a most intelligent brute, and the owner was convinced that if he found a really good teacher it could be taught to talk. Presently a Hodga appeared who said he was of the same opinion and would teach it, but it would take a long time, probably thirty years. The owner was delighted and agreed to pay the Hodga a fixed sum per annum and a big bonus when the animal talked, the Hodga promising to pay a heavy fine if it did not. A friend afterward went to the Hodga and said: "What on earth induced you to make that agreement? You know you can never teach the camel to talk." "Oh," said the Hodga, "I know that, but during the thirty years either I shall die or the owner will or the camel. Anyhow, I am all right, as I have my fixed income."—New York Commercial Advertiser.

Odd Wedding Customs.

In Switzerland the bride on her wedding day will permit no one, not even her parents, to kiss her upon the lips. In many of the provinces the cook pours hot water over the threshold after the bridal couple have gone in order to keep it warm for another bride. A favorite wedding day in Scotland is Dec. 31, so that the young couple can leave their old life with the old year and begin their married life with the new one, surely a pretty idea. The Italians permit no wedding gifts that are sharp or pointed, from which practice emanates our superstition that the gift of a knife severs friendship. One of the most beautiful of all marriage customs is that of the bride immediately after the ceremony flinging her bouquet among her maiden friends. She who catches it is supposed to be the next bride.

GARMENT WORKERS STRIKE.

Twenty-five Thousand Out at New York and More Will Follow.

New York, July 21.—Twenty-five thousand East Side garment workers went on strike during the day and it is reported 15,000 more will follow.

The unions affected are the Brotherhood of Tailors, the Vest Makers' union, the Trousers Makers' union, the Knee Breeches Makers' union, the Children's Jacket Makers' union, the Sailor Jacket Makers' union and the Buttonhole Makers' union.

The Brotherhood of Tailors demands of the manufacturers a 56-hour working week, the payment of last year's union scale, a guarantee that the contractors of middlemen will pay union wages and employ union men and also a guarantee that in case a middleman defaults, they will get their wages. Conferences between representatives of the union and the employers were held last week, but no settlement was reached. The employers were willing to grant the fifty-six hours working week, but were not willing to take any pledge as to the payment of wages by the contractors. The Brotherhood of Tailors and the unions that are on strike, belong to the Garment Workers Trade council and the other union members went out in sympathy with the tailors.

RIOT AT A BALL GAME.

Nebraska Sheriff Arrests Players and a Lively Time Follows.

Lincoln, Neb., July 21.—A telephone message from Nebraska City says that there was a riot at the baseball ground when the sheriff attempted to stop the game. A warrant for the arrest of the two teams was placed in the hands of the sheriff. When he arrived at the grounds an angry crowd surrounded him. His revolver was taken away, but he succeeded in arresting four players and took them before a justice who bound them over. A number of city pastors were at the justice's office and were jostled and threatened by the friends of the players. Mr. Shepherd, pastor of the Methodist church, was chased to his home. Later, alleging that his life had been threatened and the church property was in danger, Mr. Shepherd applied to Mayor Larue for a police guard for his house and church and it was furnished. The outbreak was the culmination of a long and bitter fight between the law and order league and the friends of Sunday ball.

WILL NOT STRIKE AGAIN.

Chicago Freight Handlers Satisfied With Present Conditions.

Chicago, July 21.—There will not be a renewal of the freight handlers' strike in Chicago. This decision was reached at a meeting of the Freight Handlers' union called by President Curran to consider a report that four of the railways were discriminating against the old men who went out on strike. After a careful consideration, the committees appointed to investigate the alleged discriminations reported that all roads with the exception of the Panhandle were living up to their agreements, and most of the roads had agreed to better terms than offered during the strike. With respect to the Panhandle the committee reported that all the old men would be back at work in the course of a few days, or as soon as the contracts with the non-union men who had been engaged during the strike should expire. This state of affairs met with the approval of the union and it was decided that there was no chance for any future controversy with the railroads.

WILL MAKE ANOTHER APPEAL.

Civic Federation to Again Try to End Miners' Strike.

Wilkesbarre, Pa., July 21.—The strike headquarters of the United Mine Workers in this city, which have been closed since President Mitchell went West, will be reopened Tuesday, when Mr. Mitchell and the district presidents will return to this city. After a brief conference as to how the relief fund shall be distributed, the subordinate officers will return to their homes and take charge of the distribution in their respective districts. When Mr. Mitchell returns to this city, he is expected to remain here until the strike shall come to an end. It is said now that the miners have defined their position, the Civic Federation will make another appeal to the coal operators to arbitrate.

MINERS' CONVENTION ENDS.

An Address to the American People Asks Aid and Support.

Indianapolis, July 21.—The convention of the United Mine Workers adjourned after issuing an address to the American people, embodying their position on the anthracite strike, their regard for the inviolability of contracts, their attitude toward the public and the public attitude toward them. The address also asks sympathy and financial aid in their struggles against the corporations, and that the public and individuals use all their influence to compel the mine operators to give the men a living wage or arbitrate their differences.

King Edward Still Improving.

Cowes, Isle of Wight, July 21.—King Edward attended divine services which were conducted by Commodore Lambton, the commander of the Victoria and Albert. Queen Alexandra and the other members of the royal family aboard the yacht were also present. The king's progress continues to surprise his physicians.

New Sultan of Zanzibar.

Zanzibar, East Africa, July 21.—Seyyid Aeli has been proclaimed sultan of Zanzibar in succession to Hamoud Bin Mahomed Bin Said, who died Friday morning from paralysis. Mr. Rodgers, the present prime minister, has been appointed to serve as regent until the sultan shall have attained his majority.

Passenger Train Wrecks a Freight.

Indianapolis, July 21.—The fast mail on the Pennsylvania railway from New York to St. Louis crashed into an Indianapolis and Vincennes freight in the yards here, injuring three persons and demolishing a half dozen cars on the freight.

BRAINERD WON FROM ASHLAND

In Game Played in that City Yesterday Afternoon—Ashland Won Saturday.

BEMIS PITCHED BOTH GAMES.

Reports from Games are Meagre But Yesterday's Score Indicated a Good One.

An eager crowd gathered about the telegraph and telephone offices Saturday and Sunday evenings to hear the returns from the games played at Ashland with the locals.

The hopes of the local fans were slightly blasted Saturday evening when the news came that Saturday's game was lost, the score being 9 to 5 in favor of Ashland.

There was a different feeling last night, however, when the report came that Brainerd had won the game that they wanted the most yesterday, the score being 6 to 3.

The reports gave it out that Bemis pitched both games. There was a report in the city last night that Frank Howe pitched the winning game yesterday, but a telegram from Captain Flynn this morning, stated that Bemis pitched this game also. Although it is not definitely known it is thought that a game will be played there this afternoon also.

Ambrose Tighe Resigns.

Ambrose Tighe has tendered his resignation to the district court judges as a member of the charter commission after serving on the commission for several years. Mr. Tighe accompanied his resignation with an explanatory letter in which he calls attention to a few of the changes needed in the present charter, which, he says, the commission is powerless to make until the legislature amends the act under which the commission was appointed.

Mr. Tighe called attention to the need of many of the city departments for larger appropriations. He also mentions the injustice of forcing the present generation of taxpayers to redeem the bonds issued by the last generation for public improvements and at the same time to be taxed for present improvements.

Mr. Tighe concludes that the present condition cannot be avoided until remedial legislation is passed. —Pioneer Press.

SHOT TWO FINGERS OFF.

A Distressing Accident Occurred at Gull Lake Yesterday, Resulting in Painful Accident to Miss Finis Bennett

Yesterday Miss Finis Bennett, daughter of Mr. and Mrs. A. H. Bennett, met with a painful accident at Gull lake which resulted in the loss of her third and little finger on the right hand.

She has been spending a week at the lake with her father and mother and others. Yesterday afternoon she was showing some one how to shoot a small twenty-two calibre rifle which she had and just before she pulled the trigger her right hand slipped to the end of the barrel. The bullet caught the little finger, crushed it badly and then passed on to the third finger, crushing this one as badly. It finally lodged in the middle finger.

The injured girl was brought to the city and taken to St. Joseph's hospital, where Dr. Thabes was called. Today the third and little finger were amputated by the doctor.

SMASHUP IN N. P. YARDS.

Several Cars of an Extra Freight Piled Up in the Yards and the Track was Blocked for Some Time.

Yesterday afternoon about 3 o'clock an extra freight coming in from the west was derailed at the west end and it caused quite a bad smash up which was not cleared up until about 11:30 o'clock last night.

It seems that the engine of the freight with several cars pulled from the side on the main track all right, but something was wrong with the switch and it turned. Some cars took one track and other cars took the other and, of course, this could not continue long and the cars began piling up on top of one another. No one was hurt but the damage is quite large.

The "Cry" of Silk.
One of the most peculiar features about manufactured silk is the rustling sound familiar to every woman. In the silk trade they call it the "cry" or sometimes the "scoop." Of all textiles silk is the only material which possesses it.

As everybody knows, the sound is heard especially when silk is subjected to friction. What is not so generally known is that the quality is found in silk yarn before it is woven. A skein of silk, unless it has been so treated as to kill this property in it, will when opened up emit the noise slightly. When the skein is squeezed in the hand, the sound becomes quite audible. The "cry" is considered a very desirable quality in silk. Dyers try to develop it as much as possible.

Unexpected Applause.

Shortly after Mr. Wilson Barrett joined the theatrical profession he became a member of a company performing at the old Theater Royal, Dublin. His part, naturally, was a small one, and, greatly to his surprise, his first speech was greeted with a round of applause. This unlooked for tribute elicited the young actor, and he exerted himself to sustain the good impression he appeared to have made. Just as he was leaving the theater one of the scene shifters grinningly accosted him and said, "Sure, it's got about among the boys that ye're a brother of the man that was hung!" A Fenian named Barrett had that morning paid the extreme penalty of the law.

An Absurd Custom in Vienna.

In Vienna every man's home is his dungeon from 10 p. m. to 6 a. m. Vienna is a city of flats, and at 10 p. m. the common entrance door of each block is closed and bolted. Thereafter persons passing in or out must pay a fine of twopenny to the concierge until midnight and fourpence from that hour to 6 a. m. To go out to post a letter costs twopenny and the same amount to return. To prolong a visit to a friend after 10 p. m. means twopenny to get out of his house and twopenny more to enter your own. A natural result of this irritating tax is that of all capital cities Vienna is earliest to bed.

Members of the Crack Team of Company F Think that Company B Boys of Minneapolis are Previous.

There is a tendency on the part of the Minneapolis papers to laud to the skies the members of Company B of Minneapolis, which belongs to the first regiment, for their work at the encampment at Lake City, but they seem to lose sight of the fact that there is a company up in the pine woods at Brainerd that beat that company by some sixty points.

The local company is dead anxious to get after the Minneapolis team and claim that they will make them look sick in the team shoot on Aug. 4, when the teams from the three different regiments compete for honors. The members of Company F were out on the ranges yesterday and beat their own record at Lake City by a large number of points.

MUSIC AND DRAMA.

James Neill and the members of this company celebrated recently, the 350th performance of the Neill company in San Francisco at the California theatre. The play was "Captain Swift," the theatre was packed to the roof, and everybody was cheerful with many flowers and congratulations all around. Mr. Neill will take the entire company to the Yosemite valley for a ten day's vacation this month.

Richard Golden, who has been starring in "Old Jed Prouty," will succeed Jerome Sykes in the title role of "Foxy Quiller" next season. The production will be taken on a tour by Ben Stern. Mr. Sykes will appear in a new musical comedy called, "The Money Burner."

Manager Walker's bookings for next season will include some of the choicest productions that will be on the road, and Brainerd theatre-goers will be highly elated when the list of attractions is made public.

W. B. JONES ELECTED TRUSTEE.

Election of School Trustee of Cass County Held Saturday at Pillager and W. B. Jones Defeats R. L. Peet.

Saturday the election of a school trustee for Cass county was held at Pillager. There were two candidates for the position, W. B. Jones, of Sylvan Lake, and R. L. Peet, of Pine River. The latter has held the position for a number of years and was extremely popular. He was only beaten by eleven votes, and it is thought if the weather had been less inclement, that the vote would have been even closer than it was.

At the meeting of the board of trustees held immediately after the election much important business was transacted, among other things recommending that a new school building be erected at Pine River.

Agent of the Great Buffalo and Wild West Shows Comes Back from St. Cloud to Find out Where he is at.

E. J. Buford, agent for the Great Buffalo and Wild West Shows, came in from St. Cloud this morning to look into the license matter in this city, having read of the experience had by the Gentry show here on Friday. He had taken out a license sometime ago but he says he wants to know where he is at before he pulls the show in here.

ON THE DIAMOND.

In an article in Saturday's issue of the Journal Press headed, "Dr. Watkins' Remedies," the following regarding the Elks game is taken: "Brainerd Elks' base ball team, in a seven-inning game played yesterday afternoon between showers at Athletic park, took a fall out of the St. Cloud brethren who wear the purple and white of the local lodge. The rain, which fell for an hour or more just before the time set for the game was successful in keeping a crowd away from the park and less than fifty paid admissions saw the game. Brainerd had the invincible Dr. Watkins in the box and Englebreton was behind the bat. To them belongs all the credit for the victory for the game. But four safe hits were made off the doctor's delivery, and one or two of these would not have been hits had the Brainerd infield been waking instead of taking naps. Brigham was in the box for St. Cloud, as that was the only position that he could play because of his injured knee. Wire caught him, and the battery did good work. Errors behind them, however, were such that Brainerd won the game. Both teams did most of their scoring in the early innings of the game."

The Brainerd base ball team will have another go at the fast Waseca aggregation on Wednesday evening of this week. So successful was the plan of playing the game in the evening the last time the Waseca team was here, that the same hour has been designated for this game, 6:30 o'clock. Dr. Watkins will be in the box for the locals this game, and it is expected that Earling Bothne, of Chicago, will have joined the team by that time so that it will be greatly strengthened up. Brainerd wants this game from Waseca and is going after it strong, and should win. Remember the date, Wednesday evening.

Wild West Show.

The Great Buffalo and Wild West shows consolidated will exhibit in Brainerd on Thursday, July 24th.

This gigantic organization is strictly a product of western enterprise and capital. No expense has been spared by the management to make this a topnotch attraction in the show line, and every feature is realistic to the highest degree.

The program, which is nearly three hours long, is replete with exciting situations, and there is not a dull moment for the spectator. It is a chapter of unwritten American history graphically illustrated by more than five hundred men and horses, illustrating many thrilling scenes incident to the conquest of the vast western wilderness more than half a century ago.

Sensational, soul stirring scenes, as they really happened in bygone days, when might made right and life and property were guarded by the venturesome pioneer and his trusty rifle. A vivid reflex of the struggles for supremacy between the advance of civilization and the red skinned denizens of the west.

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

JOHN W. MACKAY DEAD

WELL KNOWN SAN FRANCISCO CAPITALIST EXPIRES IN LONDON.

END CAME PEACEFULLY

Had Been Suffering From Heat Prostration Since Last Tuesday—His Condition Had Improved, but a Sudden Change for the Worse Set In and the Patient Never Rallied. Brief Sketch of His Life.

London, July 21.—John W. Mackay of San Francisco, who had been suffering from heat prostration since Tuesday last, died at his residence on Carlton House terrace at 6:30 p. m.

Mr. Mackay's condition, as stated previously, had improved, but the patient had a bad night, and in the morning a consultation was held by three physicians. Mr. Mackay grew worse as the day progressed. He was unconscious most of the time and died very peacefully. The immediate cause of his death was heart failure. The right lung was found to be congested and the symptoms indicated pneumonia.

Mrs. Mackay, her mother and Countess Telfern were present when Mr. Mackay died and Princess Galatro Colonna arrived from Paris a half hour after her stepfather's death.

SKETCH OF HIS CAREER.

John W. Mackay Started His Fortune With a Pick and Shovel.

San Francisco, July 21.—Mr. Mackay came to California in 1851, via Panama. He at once entered a mine working with pick and shovel in the placers of the American River and at Downville. In 1859 he went to Virginia City, Nev., and began mining on the Comstock with varying success. His first real start towards success was made when he became superintendent of the Kentucky mine in Gold Hill. In 1863 Mr. Mackay formed a partnership with Flood, O'Brien and Fair. In 1871 this famous mining quartette purchased the site of the Bonanza territory north of Ophir mine on the celebrated Comstock ledge. The began work on a lode abandoned by Sharon and other large operators. The enterprise was a fruitful source of ridicule in mining circles, nothing but financial disaster being freely predicted. Without losing heart or patience, the four men continued expending half a million dollars in prospecting operations. The ledge was struck and more than \$110,000,000 were added to the world's stock of precious metals. No accurate estimate of Mr. Mackay's holdings in this state and Nevada can be made, but it will run up into the millions. He was the owner of valuable real estate in the city and had interests in mines throughout the state and Nevada.

CAUSED QUITE A SHOCK.

Mr. Mackay's Death Deeply Felt in San Francisco.

San Francisco, July 21.—The news of the death of John W. Mackay in London caused quite a shock here, notwithstanding the public was, in a measure, prepared for it by the previous announcement of his illness. Mr. Mackay was the only surviving member of the four bonanza kings, Flood, O'Brien and Fair, the other three, having long since died. For the past eighteen years Mr. Mackay had not been actively identified with the life of the city, but he had passed most of his time in the East, only paying visits to the coast to look after his property interests in this state and Nevada. On the occasion of his last visit to this city, early this summer, Mr. Mackay completed arrangements for a

landing place for the new Pacific cable, a project that he was much interested in.

During a visit in 1892, Mr. Mackay was shot and slightly wounded by W. D. Rippey, who had a fancied grievance against him dating from the stockbroking days of the Comstock.

MINNESOTA PIONEER GONE.

Henry L. Moss, First District Attorney, Dies at Excelsior.

St. Paul, July 21.—Henry L. Moss, pioneer resident of St. Paul and first district attorney of Minnesota, died suddenly at the White House, Excelsior, Lake Minnetonka, where he had been for the past week for his wife's health.

Mr. Moss was stricken with apoplexy just as he was arising in the morning and about to dress. His death came without warning, as he had been in the best of health and in fine spirits, and had felt no premonition of the sudden end. Although he was in his eighty-third year, he was active, lively and happy, and apparently strong physically and without a complaint.

The news of his death was received in this city with profound regret among his many old friends and neighbors. He had lived in St. Paul for fifty-two years and had a wide circle of friends.

Mr. Moss was the oldest living lawyer in Minnesota in point of service for several years previous to his death. He shared with Governor Ramsey the honor of being the only surviving officers of territorial days. He was always prominent in the meetings of the Territorial Pioneers' association and gatherings of old settlers.

Exposition Buildings Burn.

A REPUTATION.

How it was Made and Retained in Brainerd.

A good reputation is not easily earned, and it was only by hard consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Brainerd residents has rendered invaluable service to the community. Read what this citizen says:

Mr. R. D. Ransom, of Third Ave., East Brainerd, fireman at the Brainerd Lumber Co., says: "For as long as twelve or fourteen years I was a sufferer from kidney ailment. My back hurt me awfully; I could stoop but when I attempted to rise, severe pain caught me in the loins. Often in bed I could not change my position and when morning came I had to be helped out of bed. The kidney secretions were of a very unhealthy color and were otherwise irregular. I commenced using Doan's Kidney Pills and one box did me so much good that I took another. The treatment cured me."

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

BALTIMORE STRICKEN

**TORNADO OF EXTRAORDINARY
VELOCITY SWEEPS OVER
THE CITY.**

ELEVEN PERSONS PERISH

Nine of the Victims Drown in the Harbor, One Is Struck by a Falling Tree and Another by a Live Wire—Hundreds of Houses Unroofed, Trees Torn Up and Much Other Damage Results.

Baltimore, July 21.—A fierce tornado, characterized by a wind storm of extraordinary velocity, thunder, vivid lightning and heavy rain, suddenly burst upon Baltimore at 1:30 p. m., coming from the southwest, with the net result that eleven persons lost their lives, hundreds of houses were unroofed, trees in the public parks and streets were torn up by the roots, many buildings damaged and several people injured. The storm exhausted its fury in less than fifteen minutes. The damage done in the business part of the city was comparatively slight, being confined to the blowing down of signs and injuries to roofs. It was in the residence portions of the city along the river front and in the harbor where the wind spent its violence.

Of those who perished nine were drowned in the harbor from open boats, one was killed by a falling tree and one by a live wire. The following is a list of the killed: Roy Bateman, Joseph Cain, John Cain, Thomas Carroll, Harry McCormick, Mrs. Mary Schuler, Harry S. Schuler, Olive Schuler, Charles Schuler, William Cornish, Charles Schaefer.

The first three victims on the above list were out in a rowboat on the river with three other companions. When the storm broke the boat was capsized, three being drowned and three being rescued by the tugboat Edna V. George. The boy killed by a live wire had in company with two other boys gone into a shed for protection when the shed blew down and a live wire fell on one of them, resulting in his death.

The drowning of Mrs. Schuler and her children was

The Most Pathetic Incident

of the hurricane. Michael Schuler, with his wife and three children, accompanied by his brother-in-law, Joseph Cooper, and his wife, had gone out into the harbor for a sail in a thirty-foot boat. When the storm came Schuler and Cooper took in sails. Schuler sent his wife and children into the little cabin and he stood at the tiller to keep the vessel's head toward the wind. A sudden gust of wind threw the boom of the vessel around, knocked Schuler down and pinned him to the deck. Another gust capsized the boat, releasing Schuler, who with Cooper and his wife, was thrown into the water, leaving Mrs. Schuler and her children pinned in the cabin. Cooper saved himself and his wife by hanging to the bottom of the overturned boat and Schuler saved himself in the same way, after making frantic efforts to get at his imprisoned wife and children. A crew from the schooner Edward H. Hunt rescued Schuler and Cooper and his wife and towed the capsized vessel to the wharf, where it was righted and the dead bodies of Mrs. Schuler and her three children taken from the cabin.

Thomas Carroll, with four other young men, was out in the harbor in a rowboat which was capsized. Carroll was drowned, while his four companions clung to the rudder of the Merchant and Miners steamship Chatham, from which perilous position they were rescued by the tug Mary.

A negro camp meeting was in progress in Paradise grove, near Powhatan, on the Liberty road. The congregation had just been dismissed when the storm broke. A huge

Oak Tree Fell Upon the Tent, in which the services had been held. Several of the worshippers were caught beneath it as it fell. The tree had to be sawed into pieces before the imprisoned men and women could be released. William Cornish was crushed to death by the falling tree. The others were not seriously injured.

A hole several feet in diameter was blown in the wall of a Catholic church in South Baltimore. A portion of the stone cornice, weighting more than a ton, fell to the street. Fortunately no one was injured by the falling stone and brick.

While the storm was at its height a boat's crew from the German steamer Breslau, at anchor in the harbor, picked up two men from a boat which had been capsized off Wolf street.

At the foot of Concord street the Merchants and Miners Transportation company's warehouse was unroofed, with small damage to the building, but the rain poured in on the valuable cargo stored therein, doing a damage which is estimated from \$100,000 to \$300,000.

The gas reservoir in South Baltimore, containing about 300,000 feet of gas, was blown over, the gas exploding, without injuring any one.

The damage to the shipping in the harbor was general, but not of a serious nature, including such as the ripping of sails and the loss of masts and spars.

SHOT THE WATCHMAN.

Robbers Attempt to Loot a Placer Near Leadville, Col.

Leadville, Col., July 21.—Three robbers attempted to force an entrance to the Hayden Gold Placers works near Leadville. The watchman, Ora Iman, was shot through the arm before he could fire. He then succeeded in shooting one of the robbers, who was placed on a horse by his companions and carried away. Before Iman could fire the second time he was knocked senseless by another robber who had entered the window. The robbers secured no money.

WAGON STRIKES A STUMP.

Young Girl Killed as a Result of Road Racing.

Frazee, Minn., July 21.—For some time past there has been considerable rivalry between Eli Davis and his father, farmers living about five miles west of here, as to which owned the fastest team.

While they were returning home from Frazee they started to race on the outskirts of town. After running about half a mile the team driven by young Davis shied out of the road and the wagon struck a stump, throwing out the occupants. Miss Morton, a neighbor's daughter, fourteen years old, was killed. Mrs. Ole Nelson was seriously injured and her husband was slightly injured. Mr. Davis and Mr. Nelson's two little girls escaped without injuries.

PASSENGER TRAINS COLLIDE.

One Person Killed and Sixteen Injured at Rochester, N. Y.

Rochester, N. Y., July 21.—A fatal head-on collision occurred between two passenger trains on the Lehigh Valley railroad near Hospital, this city, in which one person was instantly killed and sixteen more or less seriously injured. Both trains were running at a high rate of speed at the time. The engine and a passenger coach on one train was thrown from the track down an embankment into the Erie canal and was completely wrecked, the other engine was demolished, but remained on the roadbed. Peter W. Putman, aged thirty-six, of Rochester, fireman, was killed.

Disavows All Desire to Fight.

Manila, July 21.—The sultan of Bacolod, Mindanao, who recently sent an insultingly worded communication to the commander of the American expedition to Lake Lanao, in which he threatened to begin offensive operations in August, has now written a friendly letter to the commander of the American forces, in which he disavows all desire to fight and says he will confer with the Americans in the future.

Cash Mysteriously Disappears.

Chicago, July 21.—Mystery surrounds the reported disappearance of \$22,183 in cash and two certified checks for \$800 belonging to three prominent bookmakers of the Washington Park race track from the night vaults of the Masonic Temple Safety Deposit company.

Kills Sweetheart and Himself.

Marshall, Mo., July 21.—George Wiley shot and killed Miss Dovie Flinn, stepdaughter of Richard Dearkling, a Chicago and Alton railway employe, at the latter's home here, and then committed suicide. The girl is said to have refused to marry him.

TELEGRAPHIC BREVITIES.

A conflagration of unknown origin destroyed the business portion of Carglass, Trigg county, Ky.

Charles Hacklinger was shot and killed at Memphis, Tenn., by John Brooke, a photographer. Brooke claim self-defense.

W. H. White, a negro miner employed in the mines at Chandler, Col., was fatally shot by Ed. Bakewell, a guard at the mine, during a riot.

John Murphy and John Brandt, employes of the Lorain (O.) Street company, were killed by noxious gases while working at the top of the company's furnaces.

James J. Kelley, an old time minstrel who, during his professional career, appeared in nearly every part of the country, is dead at his home in New York city. He was sixty-nine years old.

TWO BROTHERS KILLED.

Wife of One of the Men Shoots Them in Self-Defense.

Carbondale, Ill., July 19.—The Jaubert brothers, who operated a small coal mine at Oraville were both shot to death at their home by the wife of one of the men. They had returned about 11 o'clock intoxicated and the husband demanded his supper. Mrs. Jaubert began its preparation and her husband began breaking the dishes and at last attacked her. Mrs. Jaubert and her sister fled to a back room and locked the door. Her husband followed, broke in the door and renewed the assault, whereupon the infuriated wife fired three shots into his body, one passing through his heart causing almost instant death. The brother, who was a witness to the tragedy, took up his brother's quarrel and attempted to strike the woman, whereupon Mrs. Jaubert emptied the two remaining chambers of the revolver into his body, inflicting a wound from which he died shortly afterward. The scene of the tragedy and the floor of the house presented a terrible sight. The woman gave the alarm and surrendered to the officers. Coroner E. E. Knaue empanelled a jury who after hearing the evidence exonerated the wife.

RESULTS IN FOUR DEATHS.

Fatal Riot Between Whites and Negroes in Tennessee.

Knoxville, Tenn., July 19.—News has been received here of a riot in Chicago, Cumberland county, Tenn., which resulted in the death of two white men and two negroes and the wounding of a number of other persons. The dead are: John Barger and C. W. Bradshaw, white, and Jim Rice and Isaac Wright, colored. The fight, according to Charles Barger of Murphy, N. C., who passed through here with the body of his brother, John Barger, resulted from a dispute over the refusal of the Chicago (Tenn.) Land and Coal company to allow negroes to work in the mines. Barger, it is claimed, urged Bradshaw, superintendent of the company, to allow the negroes to work, and a quarrel ensued, Barger killing Bradshaw. Barger was then struck on the head with a pick axe by an unknown person and a general fight ensued in which the two negroes, Rice and Wright, were killed and others whose names could not be learned, were wounded.

DUEL IN THE STREET.

Fatal Shooting Affair Occurs at Metropolis, Ill.

Metropolis, Ill., July 19.—In a duel on the street Sam Faughn of Metropolis was shot and killed by Jasper Abbott of Rock, Ill. At the time of the shooting over ten thousand people were in the city taking in the big street fair and carnival. Abbott made several remarks to ladies in a hotel for which Faughn remonstrated. He led Abbott up the street about forty yards, and Abbott then drew a pistol and shot Faughn twice, one bullet lodging below the seventh rib on the left side; the other just below the clavicle on the right side. Faughn then wrested the gun from Abbott and fired on him, inflicting a slight flesh wound. Faughn walked half a square after being shot, and then fell dead. Abbott is now in jail. Intense excitement prevails and lynching is momentarily expected. Faughn was a Knight of Pythias and a crack semi-professional baseball player.

WERE COMING FROM CHURCH.

Two Women and a Man Murdered Near Stringtown, I. T.

Atoka, I. T., July 19.—Near Stringtown, Mrs. Daniel Grant, her daughter, Mrs. Jack Reeves, and a man named Nuckles, have been waylaid and killed while returning from church. Mrs. Reeves had been separated from her husband about eight months and prior to that time the couple had lived with the Grant family. Nuckles, who had been paying attention to Mrs. Reeves, accompanied her to church. As they were returning to the Grant home they were halted. Nuckles was made to get out of the wagon and was shot. Mrs. Grant was shot while she was sitting in the wagon. Then as the team bolted Mrs. Reeves was shot. Mrs. Grant and Nuckles were killed instantly and Mrs. Reeves lived only a few minutes. The identity of the assailant is not known.

TRACY LOST SIGHT OF.

Escaped Oregon Convict Continues to Baffle His Pursuers.

Seattle, Wash., July 19.—Not a word has been heard of Harry Tracy, the escaped convict, since he left the cabin on Sawyer lake. Sheriff Cuddehe, who returned to Seattle shortly before noon with the most of his posse, refused absolutely to give out any information. It is believed he has received some news from his men and that he will go out again himself. A few guards were left on duty at Ravensdale, Covington and Auburndale.

FIGHT WITH TRAIN ROBBERS.

One Robber and Two Officers Killed and the Other Desperado Captured.

Saguache, Col., July 19.—A story, the truth of which has not been confirmed, reached here of a fight between a posse and the Denver and Rio Grande train robbers on Ohio creek, in which one robber and two officers were killed and the other robber captured.

If the fight occurred, the posse engaged was probably that headed by Special Agent Brown, of the Denver and Rio Grande.

Negro Murders Two Men.

Variola, La., July 19.—Roger Brown, a negro, charged with the murder of two men, two miles east of Variola, has been taken to Natchez to escape lynching. Brown got into a quarrel with another negro named Ellis and drained him with a stick of wood. The camp foreman, a white man, grabbed Brown, but the latter got away, and, picking up an axe, attacked the foreman and killed him.

Typewriter Thief Sentenced.

Kansas City, Mo., July 19.—Harry Mercer, a typewriter thief who has operated in several Eastern states, has been sentenced to four years in the penitentiary. He pleaded his own case.

Gotta be Lint.

A drummer named Peck put up at a hotel in Oklahoma, the landlord of which was the president of the school board. The landlord, who was a jolly, whole souled fellow, suggested that they visit the schools, the president of the board first putting on a long tailed coat, saying:

"She adds dignity, an' then she hides my gun, which are a bad example 'fore them children. I don't approve of anybody under fourteen carryin' a gun."

After returning to the hotel from the visit of inspection the president of the board, now transferred into a landlord, said:

"Peck, you're a good feller. You ain't goin' to let your light be hid under a bushel, Peck?"

"No, I ain't," said Mr. Peck, rather dubious as to the compliment.

"Well, I tell you what I'm goin' to do for you. Bein' as you're a good feller, I'm a-goin' to have clean sheets put on your bed, dad me if I ain't!"

Awkward.

Mrs. Norton came home from a call one day in such a disturbed condition that it was evident tears were not far in the background. She lost no time in beginning her explanation.

"John," she said to her husband, "I am so mortified I don't know what to do."

"What is the matter, my dear?" asked Mr. Norton.

"I have just been calling on Mrs. Peverill. You know her husband, Major Peverill?"

"Yes."

"Well, I have just learned today, to my horror, that 'major' isn't his title at all. 'Major' is his first name."

"Why, certainly, I've always known that. What is there so mortifying about it?"

"Nothing," said Mrs. Norton, with a groan, "only that I've been calling him 'major' every time I've met him for the last six months!"—London Answers.

The Canalboat.

"The captain was leading the horse and his lieutenant was at the rudder," said a lawyer in an English court recently, describing an incident in the voyage of a canalboat.

"Where was the crew?" inquired the judge.
